

New Jersey Inclusive Child Care Project (NJICCP)

Monday, March 21st, 2022
7:00- 8:00 PM

S.A.F.E (Supporting & Advancing Family Engagement) Space Series ***“Transitioning from Early Intervention to Special Education with an IEP”***

S.A.F.E Space is an opportunity for parents and early childcare providers to come together and discuss issues that encourage, educate and promote family engagement of children with disabilities. When families are engaged as partners, children are provided with a foundation for success.

When children turn 3 years old, they age out of Early Intervention and could be eligible to receive Special Education services under Part B of Federal IDEA. This process can be very overwhelming for families. Providers can assist in providing support to families to ensure a smooth transition. In this session, we will:

- Discuss the process from transitioning from Early Intervention with an IFSP to Special Education with an IEP
- Gain an understanding of what to expect at each meeting
- Review resources you can share with families that assist in the transition
