

New Jersey Inclusive Child Care Project (NJICCP)

Monday November 22nd, 2021

7:00- 8:00 PM

S.A.F.E (Supporting & Advancing Family Engagement) Space Series

“Including Children with Diverse Abilities in Early Child Care Settings”

S.A.F.E Space is an opportunity for parents and early childcare providers to come together and discuss issues that encourage, educate and promote family engagement of children with disabilities. When families are engaged as partners, children are provided with a foundation for success.

In an inclusive early child care setting, children with diverse abilities can participate and receive supports alongside their peers. Research shows that a learning environment is enriched and more effective when children are ALL abilities are full participants. In this session, we will:

- Discuss how to support inclusion of children with diverse abilities.
- Review simple adaptations and accommodations that can easily be incorporated in your program and routines.
- Review resources for families that support communication and engagement
